a. This increase in the cost of management arises from the exhibition for the first time as a charge against the money order system, of the salaries of clerks in city post offices engaged exclusively in money order duties; also from the preliminary expenses incurred in organizing money order exchange with a number of additional countries, as stated in the report for the year ended June 30, 1888. b. Including the amount of the "Void" orders of the previous years. c. Including payment for services partly chargeable to preceding year. \* Under the system of accounts introduced July 1, 1888, these items cannot be given separately.

F. E. S. GROUT,
